

THOMAS KOGLER a.k.a. ART GUNN

ART GUNN is an ambitious young artist, who's manage to leave his mark on the scene within a short period of time. Triggered by an unpleasant personal experience, he rediscovered an old passion from his childhood days – When his beloved dog passed away, Thomas went on to look for a way to process this loss and ended up finding consolidation in his childhood hobby. This way, mourning turned into a new passion, unbrokenly spurring him on until this day.
